Fluid-o-Tech and Marelli Motorsport announce strategic collaboration and first product release

Fluid-o-Tech group and Marelli Motorsport are announcing their strategic collaboration to develop a new and innovative device that takes advantage of the high-efficiency GaN (Gallium Nitride) technology to boost performance of thermal management systems of motorsport competition vehicles. The collaboration is marked by the release of a new cooling pump-motor unit.

Marelli Motorsport is a global leader in developing electronic and electro-mechanical systems for two and four-wheel racing vehicles, supplying all the top teams in all the most important motorsport world championships.

Fluid-o-Tech has 70 years of experience in high precision mechanical engineering and fluidics and is an industry leader in the design and manufacture of high-quality volumetric pumps and proportional valves, with a significant know-how in the automotive, particularly on emission control systems.

As original distinctive innovators and first-class integrators in the automotive industry, Marelli Motorsport expertise, combined with Fluid-o-Tech innovative best-in-class solutions in fluidics, will enable a brand new generation of technologies for sustainable mobility.

About Fluid-o-Tech

Fluid-o-Tech has 70-year experience in moving, dosing and controlling fluids with high accuracy and precision by designing and producing volumetric pumps, valves and sensors for automotive, foodservice, industrial and healthcare industries. Driven by innovation, empowering new technologies and solutions for controlling fluids, Fluid-o-Tech anticipates customer needs, always staying ahead, leveraging on its multidisciplinary core. Its factory is considered a model example for Industry 4.0. The company with a direct presence in Italy, Germany, UK, USA, China, exports +80% of its production. Quality and Innovation are the company strategic pillars, 5% of revenues are invested yearly in R&D involving 16% of its staff. Fluid-o-Tech has been awarded three times in a row with the National Prize for Innovation by the President of the Italian Republic.

About Marelli

MARELLI is one of the world's leading global independent suppliers to the automotive sector. With a strong and established track record in innovation and manufacturing excellence, our mission is to transform the future of mobility through working with customers and partners to create a safer, greener, and better-connected world. With around 50,000 employees worldwide, the Marelli footprint includes 170 facilities and R&D centers across Asia, the Americas, Europe, and Africa, generating revenues of 1,380 billion JPY (10.6 billion EUR) in 2021.
